SHIELA ROSE MARILAO

IT SUPPORT & OPERATIONS | CLOUD & INFRASTRUCTURE

Philippines | +63 906 416 0465 | shielarosemarilao@gmail.com
GitHub: github.com/faithntech | Portfolio: devops-cloud-ai-automation-engineer.vercel.app

PROFESSIONAL SUMMARY

IT and technical operations professional with 3+ years of experience supporting deployments, CI/CD pipelines, application environments, monitoring, and technical operations. Brings 8+ years of combined technical experience across DevOps, facilities operations, and manufacturing. Hands-on project experience with AWS, Docker, Linux, Jenkins, Grafana, Terraform, and monitoring tools. Focused on practical troubleshooting, documentation, operational reliability, and supporting teams.

TECHNICAL SKILLS

IT Operations	Technical troubleshooting, deployment/configuration issue investigation, documentation, task tracking
Cloud & Infrastructure	AWS EC2, S3, CloudFront, Terraform fundamentals, Linux, NGINX
Containers & CI/CD	Docker, Docker Compose, Kubernetes fundamentals, Jenkins, Git, Bash
Monitoring	Grafana, Prometheus, Uptime Kuma, service availability and resource monitoring
Tools & Automation	Jira, Confluence, Redmine, n8n, APIs, webhooks, workflow automation
Databases	MySQL; familiarity with AuroraDB, DynamoDB, MongoDB, and Redis

SELECTED TECHNICAL PROJECTS

Infrastructure Monitoring & Incident Notifications — Hands-on project

Configured a cloud monitoring environment using Terraform, AWS EC2, Docker Compose, Prometheus, Grafana, Uptime Kuma, and n8n. Explored service monitoring and Telegram notifications; local incident summarization was experimental.

AWS Static Website with CI/CD — Hands-on project

Configured static website hosting with AWS S3 and CloudFront and connected GitHub to AWS CodePipeline to practice deployment workflows and troubleshooting.

Containerized Application Infrastructure — Hands-on project

Used Terraform, AWS EC2, Docker Compose, Redmine, MySQL, and NGINX to practice infrastructure provisioning, service configuration, and containerized deployment.

PROFESSIONAL EXPERIENCE

Software Test Engineer (Freelance)

Design Sharing Limited, Japan | Feb 2025 – Apr 2025

- Executed testing activities, defect tracking, release validation, and QA documentation.

DevOps Engineer cum QA Lead

Innovators Media Marketers Inc., Makati | May 2023 – Jan 2025

- Supported CI/CD pipelines, release activities, QA, AWS-hosted Redmine environments, and operational scripting.

DevOps Engineer (Tier 2 Support)

Innovations Group (DSSE), Pasay | Apr 2022 – Mar 2023

- Supported deployments, troubleshooting, monitoring, incident response, and technical documentation.

Resident Female Multi-Skilled Technician / Facilities Coordinator

ENOVA Facilities Management LLC, UAE | 2018 – 2020

- Handled maintenance coordination, incident resolution, reporting, and operational support.

Facilities Management Technician

ENOVA Facilities Management LLC, UAE | 2014 – 2016

- Supported maintenance, inspections, technical service requests, and compliance documentation.

Wirebond Technician

AMKOR Semiconductor Company | 2013 – 2014

- Operated production equipment and performed quality inspections.

EDUCATION & TRAINING

Diploma in Electronics Engineering Technology — Technological University of the Philippines – Taguig (2009–2013)

DevOps Engineering Bootcamp (2023–2024) — AWS, Terraform, Ansible, Python, Linux, CI/CD

Full Stack Development Bootcamp (2022) — JavaScript, HTML, CSS, Node.js, MongoDB, REST APIs

Additional Training: CI/CD with Heroku (2023); NC II – Computer Systems Servicing (2019)
